

# SD25 ONLINE REGISTRATION

Dear Parents,

Like so many of our neighboring school districts, AHSD25 is excited to announce that we will be moving to an online registration for current (returning) students only\* for the upcoming 2012–13 school year. To help us achieve a highly secured process for obtaining data based information, we have chosen to partner with *infosnap* — a leading provider of online registration specifically designed for PreK–12 school districts.

The SD25 online registration forms are customized to each student and through a single centralized online process, parents are able to:

- Review and update already prepopulated student information on file.
- Provide crucial emergency information
- Indicate vital medical information
- Read and agree to important notifications
- Sign up for special school services
- View and print key school information
- Pay school fees
- Save and come back, as well as share family information between siblings.

SD25 offers this online registration convenience for current/returning students to help ease the completing and submission of a multitude of separate forms which will also greatly assist us as we manage and process information.

You will be mailed a letter prior to March 1st with an access code and important instructions regarding the online registration process.

Thank you,

Arlington Heights School District 25

\* New to the district (all grades) students will receive a paper packet of registration information by mail. Students entering Kindergarten, whether new to the district or not, will also receive a paper packet of registration information by mail.
