

CORE 25

Proudly Presents:

**IEP 101: Understanding the IEP Process:
A Guide for Parents**

May 9, 2013

9:30 AM - 11:00 AM

**Dunton Administration Center
(Multipurpose Room)**

For Success and Understanding

**District 25 is proud to announce our next
CORE 25 meeting and presenter Dr. Mary Meduna**

Dr. Meduna has 18 years of experience as a special educator. She worked for 7 years as a teacher and 11 years as an administrator. Dr. Meduna has worked with students who had a wide range of needs including academic, emotional, behavioral, and self-care. Her experiences in early intervention taught her the value of integrating related services into instruction. As a teacher in a school-aged setting, she learned the importance of collaboration with general education colleagues in order to ensure successful inclusion for students in the general education setting.

Dr. Meduna's work as an administrator provided her the opportunity to work with a larger group of highly skilled teachers and related service providers. The skills she developed while listening to and learning from these professionals helped her facilitate IEP teams to coordinate instruction and services to support students in less restrictive settings.

Dr. Meduna's experiences have provided her with the knowledge to help parents better understand and prepare for their child's IEP.

*Please join us in welcoming Dr. Meduna and
hearing her presentation for having a successful IEP meeting!*
